 - 2A. Your deductible recurs every January. Every insurance policy has different deductible amounts and you are responsible to pay your entire deductible before the insurance pays anything.
3. If your unpaid balance reaches \$300.00, your sessions will be suspended until full payment is made.
4. Missed appointment charges must be paid in full before your next appointment.
 - 4A. The charge for a missed appointment will be discussed with your provider and you will sign a separate document confirming that you are aware of the cost of missed appointments.
5. Payment Agreements may be arranged with Dr. Weingarden's office to pay off outstanding balances.
 - 5A. Terms of Payment Agreement include:
 - i. The first payment is due at the time of signing the Agreement.

 - 8A. Credit card information is kept confidential, in compliance with HIPAA regulations, and is only available to particular staff on a 'need to know' basis for purposes of billing.
 - 8B. It is your responsibility to provide updated credit card information if/when your card expires or you prefer to use a different credit card.

OUR PLEDGE REGARDING MEDICAL INFORMATION

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. HOW WE MAY USE AND DISCLOSE YOUR HEALTH INFORMATION

The following categories describe different ways that we use and disclose your health information. For each category we explain what we mean and give some examples. Our records contain information regarding your mental health or may contain information on substance abuse; those records may be subject to additional restrictions under state law, which we will comply with. Also, if you are a minor, certain specific information that relates to mental health, substance abuse, pregnancy or sexually transmitted diseases, may be protected by additional restrictions under state law, which we will comply with. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

- ◆ **For Treatment.** We may use and disclose health information about you to arrange for and provide you with treatment, health care or other related services by us or others, and to communicate with other providers such as referring physicians or specialty providers to assist in your treatment. For example, the therapist or psychiatrist treating you may need to communicate with your primary care physician to know if you have an illness or disease or are currently taking prescription medication for the treatment of an illness or disease, because this may affect the type of therapy you are provided with and your recovery.
- ◆ **For Payment.** We may use and disclose your health information to bill and collect for the treatment and services we provide to you. We may send your health information to an insurance company or other third party for payment purposes, including to a collection service. We may also disclose your health information to another health care provider or payor of health care for the payment activities of that entity. For example: We may give your health plan or insurance company information about a treatment or service you have received, or are going to receive so that we can be reimbursed for providing that treatment or service. We may also contact your health plan or insurance company for prior treatment authorizations and referrals.
- ◆ **For Health Care Operations.** We may use and disclose your health information for the Birmingham Maple Clinic's operations. These uses and disclosures are necessary to run Birmingham Maple Clinic, to make sure you receive competent, quality health care, and to maintain and improve the quality of health care we provide. We may also provide your health information to various governmental or accreditation entities to maintain our license and accreditation. For example: We may use your health information to evaluate the performance of our staff in caring for you, or evaluate how to improve our facilities and the services we provide.
- ◆ **Special Purposes When Permitted or Required by Law.** We may disclose medical information about you for special purposes when permitted or required by law, including the following:
 - ◆ To avert a serious threat to health or safety against you, the public or another person. Any disclosure, however, would only be to someone able to help prevent or lessen the threat, or to law enforcement authorities in particular circumstances.
 - ◆ For public health and administrative oversight activities, such as disease prevention, disease control, abuse or neglect reporting, health and vital statistics, audits, investigations, licensure reviews and reports of births and deaths.
 - ◆ For research purposes, limited information may be disclosed as required by law.
 - ◆ To workers' compensation or similar programs for the payment of benefits for work-related injuries.
 - ◆ To coroners, medical examiners and funeral directors to identify a deceased person, determine cause of death, or to carry out duties.
 - ◆ To comply with court orders, judicial proceedings, or other legal processes related to law enforcement, custody of inmates, legal and administrative actions, and criminal activity.
 - ◆ For U.S. military and veteran reporting regarding members and veterans of the armed services of the U.S. or foreign military.
 - ◆ For national security and intelligence activities such as protective services for the President and other authorized persons.
 - ◆ To disaster relief organizations who seek your information during a disaster to coordinate your care or notify family or friends of your location and condition.
- ◆ **De-Identified Information.** We may use your health information, or disclose it to a third party whom we have hired, to create information that does not identify you in any way. Once we have de-identified your information, it can be used or disclosed in any way according to law.
- ◆ **Health Oversight Activities.** We may disclose your health information to a health oversight agency for activities authorized by law. These oversight activities might include audits, investigations, inspections, and licensure. These activities are necessary for the government to monitor the health care system, government benefit programs, and compliance with civil rights laws.

- ◆ **About Victims of Abuse.** We may disclose your health information to notify the appropriate government authority if we believe an individual has been the victim of abuse, neglect or domestic violence. We will only make this disclosure if you agree or when required or authorized by law.
- ◆ **As Required By Law.** We will disclose your health information when required to do so by federal, state or local law or regulation.
- ◆ **Communications Regarding Our Services or Products.** We may use and disclose your health information to make a communication to you to describe a health-related product or service of Birmingham Maple Clinic. In addition, we may use or disclose your health information to tell you about products or services related to your treatment, case management or care coordination, or alternative treatments, therapies, providers or settings of care for you. We may occasionally tell you about another company's products or services, but will use or disclose your health information for such communications only if they occur in person with you. We may also use and disclose your health information to give you a promotional gift from us that is a minimal value.
- ◆ **Treatment Alternatives, Appointment Reminders and Health-Related Benefits.** We may use and disclose your health information to tell you about or recommend possible treatment alternatives or health-related benefits or services that may be of interest to you. Additionally, we may use and disclose your health information to contact you by mail or phone to provide appointment reminders. If you do not wish us to contact you about treatment alternatives, health-related benefits or appointment reminders, you must notify us in writing, and state which of those activities you wish to be excluded from.
- ◆ **Individuals Involved in Your Care or Payment for Your Care.** We may release health information about you to a family member or relative, personal representative, or any other person identified by you who is involved in your health care. We may also give information to someone who is involved with or helps pay for your care. We may also tell your family, friends, personal representative or other person responsible for your health care your condition and that you are at a hospital.
- ◆ **Business Associates.** We sometimes contact with third-party business associates for services. For example, these business associates include billing services, medical transcriptionists, answering services, consultants, and attorneys. We will disclose your medical information to our business associates to the extent necessary for them to perform the requested services. Our business associates are required by law to protect your medical information just as we are required to do so.

OTHER USES OF HEALTH INFORMATION

Other uses and disclosures of health information not covered by this Notice or the laws that apply to us will be made only with your written authorization. These may include, but are not limited to, the following: (i) most uses and disclosures of psychotherapy notes; (ii) uses and disclosures for marketing purposes, including subsidized treatment communications; (iii) disclosures that constitute a sale of health information. If you provide us with authorization to use or disclose your health information, you may revoke that authorization, in writing, at any time. If you revoke your authorization, we will no longer use or disclose health information about you for the reasons covered by your written authorization.

You understand that we are unable to take back any disclosures we have already made under the authorization, and that we are required to retain our records of the care that we provided to you.

YOUR RIGHTS REGARDING YOUR HEALTH INFORMATION

You have the following rights regarding health information we maintain about you:

- ◆ **Right to Request Restrictions.** You have the right to request a restriction or limitation on the health information we use or disclose about you for treatment, payment or health care operations. You also have the right to request a limit on the health information we disclose about you to someone who is involved in your care or the payment for your care. For example: You could ask that we not use or disclose information about your condition to a certain person to whom disclosure would otherwise be permitted. Also, we will honor a valid Court Order that you provide to us, which restricts disclosure of information about a child to a non-custodial parent.

To request restrictions, you must make your request in writing and submit it to the individual at the address identified at the end of this Notice. In your request, you must tell us: (1) what information you want to limit; (2) whether you want to limit our use, disclosure or both; and (3) to whom you want the limits to apply.

Please note that we may choose not to comply with a restriction request with respect to certain services, unless you choose to pay for the services out-of-pocket, in full, and you request that we not disclose your health information related solely to those services to your insurance provider/health plan.

- ◆ **Right to Request Confidential Communications.** You have the right to request that we communicate with you or your responsible party about your health care in an alternative way or at a certain location.

To request confidential communications, you must make your request in writing and submit it to the individual at the address identified at the end of this Notice. We will not ask you the reason for your request. We will accommodate all reasonable requests. Your request must specify how or where you wish to be contacted.

- ◆ **Right to Inspect and Copy.** You have the right to inspect and copy health information that may be used to make decisions about your care.

To inspect and copy health information that may be used to make decisions about you, you can submit your request in writing to the individual at the address identified at the end of this Notice. If you request a copy of the information, we may charge a fee for the reasonable costs of copying, mailing or other expenses associated with your request. We may deny your request to inspect and copy in certain very limited circumstances. If you are denied access to health information, you may request that the denial be reviewed. Another licensed health care professional chosen by us will review your request and the denial. The person conducting the review will not be the person who denied your request. We will comply with the outcome of the review.

- ◆ **Right to Amend.** You have the right to ask us to amend your health and/or billing information for as long as the information is kept by us.

To request an amendment, your request must be made in writing and submitted to the individual at the address identified at the end of this Notice. In addition, you must provide a reason that supports your request.

We may deny your request for an amendment if it is not in writing or does not include a reason to support the request. In addition, we may deny your request if you ask us to amend information that:

- ◆ Was not created by us, unless the person or entity that created the information is no longer available to make the amendment;
- ◆ Is not part of the health information kept by or for us;
- ◆ Is not part of the information which you would be permitted to inspect and copy; or
- ◆ We believe is accurate and complete.

- ◆ **Right to an Accounting of Disclosures.** You have the right to request a list of certain disclosures that we have made of your health information. In this accounting, we are not required to list certain disclosures, including disclosures made for the purposes of treatment, payment and health care operations; disclosures made pursuant to your authorization or made directly to you; disclosures made incident to a use or disclosure otherwise permitted by law; disclosures made to create a limited data set; and disclosures made for national security or intelligence purposes and disclosures made to correctional institutions or to law enforcement officials.

To request this list of disclosures, you must submit your request in writing and submit it to the individual at the address identified at the end of this Notice. Your request must state a time period that may not be longer than six years prior to the date of the request. Your request should indicate in what form you want the list; for example, either paper or electronically. The first list you request within a twelve-month period will be free. For additional lists, during such twelve-month period, we may charge you for the costs of providing the list. We will notify you of the cost involved and you may choose to withdraw or modify your request at that time before any costs are incurred.

- ♦ **Right to a Paper Copy of This Notice.** You have the right to a paper copy of this Notice. You may ask us to give you a copy of this Notice at any time. Even if you have agreed to receive this Notice electronically, you are still entitled to a paper copy of this Notice.

To obtain a paper copy of this Notice, contact us in writing and submit it to the individual at the address identified at the end of this Notice.

CHANGES TO THIS NOTICE

We reserve the right to change this Notice. We reserve the right to make the revised Notice effective for health information we already have about you as well as any information we receive in the future. We will post a copy of the current Notice in a clear and prominent location to which you have access. The Notice is also available to you upon request. The Notice will contain on the first page, in the top right-hand corner, the effective date. In addition, if we revise the Notice, you may request a copy of the revised Notice then in effect.
